

AYSHA PARVEEN J

MACHINE LEARNING ENGINEER

PROFESSIONAL SUMMARY

Motivated and detail-oriented Artificial Intelligence and Machine Learning student with a strong foundation in C, C++, Java, Python, and SQL. Proficient in web technologies such as HTML, CSS, and JavaScript, with solid knowledge of Data Structures, Algorithms, and Machine Learning principles. Passionate about developing intelligent and impactful applications, including image authenticity detection and disaster management systems. Eager to apply and expand technical expertise through hands-on projects, research initiatives, internships, and collaborative learning opportunities in the field of AI and ML.

Technical Profiles:

[LeetCode](#) | [Github](#) | [HackerRank](#) | [CodeChef](#)

EDUCATION

Bachelor of Technology | 2023 - 2027 (PURSUING)

BANNARI AMMAN INSTITUTE OF TECHNOLOGY

- **COURSE:** B.Tech Artificial Intelligence and Machine Learning
- **CGPA:** 7.77

Schooling | 2021 - 2023

STANES ANGLO INDIAN HIGHER SECONDARY SCHOOL, COONOR

- **GROUP:** BIOLOGY-MATHS
- **PERCENTAGE:** 85.3%

TECHNICAL SKILLS

Languages: C, C++, Java, Python, SQL

TOOLS & FRAMEWORKS:

Frontend & Mobile: HTML, CSS, JavaScript, React Native, React.js

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

UI/UX Design: Figma, Canva

Development Tools: Android Studio, VS Code

Version Control & Deployment: Git, GitHub

Others: Cisco Packet Tracer (IoT)

INTERNSHIP EXPERIENCE

Elevate Labs, Remote

AI & ML Intern:

- Worked on real-time AI/ML projects involving data preprocessing and model development using TensorFlow, Keras, and Scikit-learn.
 - Gained hands-on experience in implementing AI solutions and optimizing model performance.
-

PROJECTS

Image Authenticity & Blur Detection (AI/ML Project)

- Built a machine learning model to detect manipulated/fake images and assess image clarity using blur detection techniques.
 - Combined forensic methods with AI to improve detection accuracy.
-

CERTIFICATION

- IoT Certification - *Cisco Networking Academy*
- Prompt Engineering, Introduction to OpenAI GPT Models - *Infosys Springboard*
- First Python Program from UST - *Coursera*
- Problem-Solving & Coding Practice - *Solved challenges on LeetCode, CodeChef and HackerRank*
